## **Quick Stats**

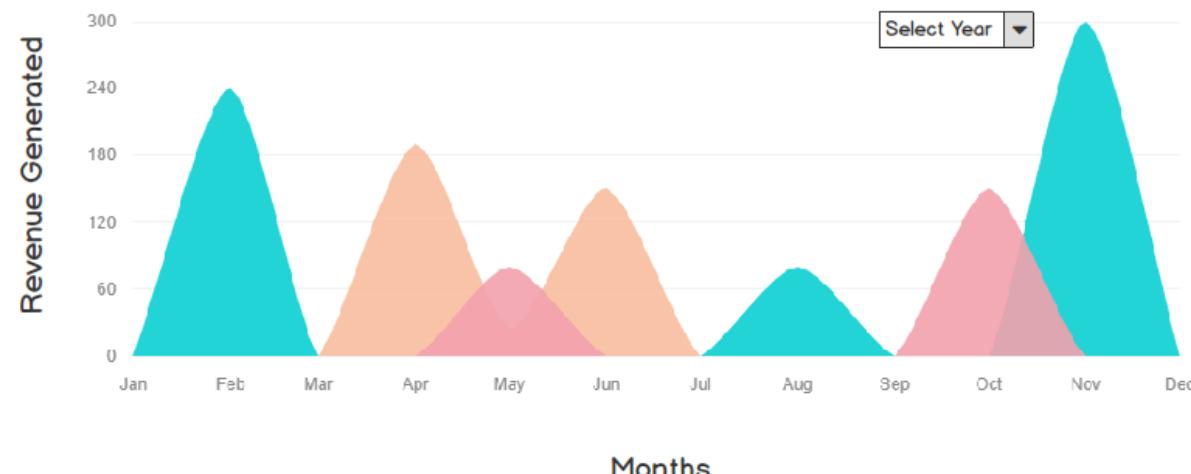

### *Average Monthly Income*

### *Average Yearly Income*

### Revenue Generated per year

A screenshot of a web-based行政管理 (Admin Management) system for a restaurant named "BIRYANI KING". The interface includes a left sidebar with navigation links like Dashboard, Menu, Order Log, Payment Log, Category Management, User Management, Feedback, and Settings. The main content area displays an "Admin Dashboard" with a "Menu" section. It shows a total of 100 food items. A table lists items with columns for S.no, Food Item Name, Category Name, Price, Status, and Actions. The "Actions" column includes options for View, Edit, and Delete. The "Edit" option for the third item is currently selected, showing a dropdown menu with these three options. Navigation buttons at the bottom allow switching between pages.

A magnifying glass icon followed by the URL "http://".

The screenshot shows a web-based admin dashboard for "BIRYANI KING". The left sidebar contains links for Dashboard, Menu, Order Log, Payment Log, Category Management, User Management, and Feedback. The main area is titled "Admin Dashboard" and "Profile". A modal window titled "Change Password" is open, containing fields for Current Password, New Password, and Re-enter new password, each with an eye icon for visibility. Below the modal is a "Update" button. At the bottom, there is a "Zip code" field with the value "123123" and an "Edit" button.
